

# An Introduction to Oil Painting and Colour Theory for all disciplines - half day workshop by Kim Whitby.

## **What is this workshop about?**

During this workshop Kim will share her learning (from all levels up to Masters level) and use her teaching experience, to help you focus on some strategies and approaches to develop your painting... by teaching you the very basics of simple colour theory and supporting you whilst you applying this on a still life painting study. this should give you an insight into how your painting can be developed independently.

“I know that learning about colour theory and using a limited palette really helped advance my painting. I will share this learning from my Fine Art Masters Degree with you”. Kim Whitby

**Suitable for** complete beginners and the more experienced artist.

## **You will...**

Learn about primary, secondary and complimentary colours theoretically and practically.

Explore the ways of working from direct observation.

Apply the theory whilst undertaking a still life study with support.

## **By the end of the workshop you will have...**

Been introduced to simple colour theory applicable to most general painting - regardless of the medium.

Applied this learning in the painting medium of your choice during the afternoon.
